MUHAMMAD NOVAL AULA

FULLSTACK DEVELOPER

(+62) 877-1326-1059 | novalaula486@gmail.com | Tegal, Central Java

www.linkedin.com/in/muhammadnovalaula | novalport.my.id

PROFILE

Fullstack Developer experienced in designing and developing web applications across both frontend and backend. Skilled in building responsive user interfaces, developing RESTful APIs, designing backend architectures, and managing database systems using various modern technologies. Adept at translating business requirements into functional, scalable, and maintainable digital solutions. Strong problem-solving and analytical skills, with the ability to adapt to evolving technologies and project requirements.

EDUCATION

Harkat Negeri University 2022-2026

Applied Bachelor's Degree Informatics Engineering | IPK: 3,85 / 4.00

- Completed a final-year project titled "Web-Based Healthy Catering Ordering Information System with RAG Chatbot Integration and Raw Material Stock Prediction Using the Random Forest Algorithm (Case Study: CV Nutrisi Citra Nusantara).

WORK EXPERIENCE

Freelance November 2023 - NOW

Fullstack Developer

- Developed and maintained 10+ web-based projects using modern technologies, covering frontend development, backend services, RESTful API integration, database management and debugging.
- Built and delivered 3+ business management systems, including Point of Sales (POS), ERP management systems, and e-commerce platforms to support operational workflows and business processes.
- Developed a Point of Sales (POS) system with 5+ core modules, including transaction processing, product management, membership, loyalty points, and sales reporting.
- Implemented backend services and database integrations to support multiple interconnected modules, improving data consistency and simplifying business operations.
- Improved development efficiency by implementing reusable components, reducing repetitive UI development efforts by an estimated 20–35% across pages with similar structures.
- Optimized application performance and maintainability through structured code implementation, API integration, debugging, and deployment practices.
- Collaborated with cross-functional teams to translate business requirements into technical solutions and deliver project features within established timelines.

Komerce Juli 2025 - November 2025

Fullstack Developer

- Contributed to the development and maintenance of Komship by enhancing three core modules: **Shipment Tracking, Bulk Order, and Shipping Analytics.**
- Implemented shipment tracking features using **Go and shipping API integrations**, enabling the retrieval, processing, and display of shipment status information.
- Developed and enhanced bulk order validation and processing workflows, handling multiple order entries to support more efficient shipment management.
- Implemented shipping analytics features to process and present courier performance, shipment statistics, and delivery reports for operational monitoring
- Integrated frontend interfaces built with Next.js with backend services and PostgreSQL databases to ensure consistent data processing and application functionality.
- Performed debugging, API integration, and feature maintenance to improve existing application functionality and system reliability.

SELECTED PROJECT

Artisan Sistem Point of Sales (POS)

PWA POS System

- Designed and developed a Progressive Web Application (PWA) for point-of-sale operations across three café branches: **Sekapa House, Depot Wahid, and Sempati**.
- Built core modules for transaction processing, product management, sales reporting, and customer membership.
- Implemented a loyalty points system that allows members to earn points from purchases and redeem them for eligible products.
- Developed centralized transaction management to support operational monitoring and sales tracking across multiple branches.
- Supported 900+ daily transactions across three café branches, averaging approximately 300 transactions per branch.

Property Management System (Panggora)

Property Management Web Development

- Designed and developed a web-based property management system to centralize property operations, tenant management, and rental administration.
- Implemented multi-property management capabilities, allowing property owners to manage multiple buildings and locations within a centralized platform.
- Developed core modules for property management, room management, tenant records, rental agreements, invoicing, payment tracking, and operational expenses.
- Implemented role-based access control (RBAC) for owners, administrators, and property managers to manage permissions across operational workflows.
- Designed rental management workflows covering monthly billing, payment recording, deposits, and outstanding payment tracking.

Healthy Catering Information System

CV Nutrisi Citra Nusantara – AI & Machine Learning Integration

- Designed and developed a web-based healthy catering ordering system to streamline customer ordering, menu management, and business operations.
- Implemented customer-facing features, including authentication, menu catalog, shopping cart, checkout, order history, and payment integration using Xendit.
- Developed administrative modules for menu management, order processing, raw material inventory, transaction management, and business reporting.
- Integrated a Retrieval-Augmented Generation (RAG) chatbot to provide automated responses to customer inquiries based on the catering knowledge base.
- Implemented a Random Forest prediction model to forecast catering package demand and estimate raw material requirements based on menu composition.
- Evaluated the prediction model, achieving an R^2 score of 0.95 and MAPE of 3.61%.

SKILL

- Programming Languages: JavaScript, TypeScript, Go (Golang), PHP, HTML, CSS
- Frontend Skills: Next.js, React.js, SvelteKit, Vue.js
- Backend Skills: Express.js, Laravel, Hono, Golang
- Database & ORM: PostgreSQL, MySQL, Prisma ORM, Drizzle ORM
- AI & Machine Learning: Retrieval-Augmented Generation (RAG), AI Chatbot Integration, Random Forest, Predictive Modeling
- Soft Skills: Problem Solving, Critical Thinking, Analytical Thinking, Team Collaboration, Adaptability, Time Managemen

CERTIFICATIONS

- **IMS Database Performance and Tuning** - IBM, 2026.
- **IMS Data Sharing** - IBM, 2026.
- **Intermediate to Advanced: Professional Figma UI / UX Design** - Skillshare, 2026.

LANGUAGES

- **Indonesian: Native**
